# ModulMounter

Flatbed Laminator

MADE IN DENMARK

SIGGRAPHICS  
DET SÄKRA VALET

## *The best ModulMounter ever!*

The laminator that can grow, and needs no Air-Compressor

- Only a ModulMounter can at any time be extended in steps of 1 meter.
- Can now laminate at table edge because of electrically operated roller.
- ModulMounter is module built and can be totally disassembled for difficult access.
- Can be upgraded at any time with light boxes in 1 meter steps.
- Only a ModulMounter laminates the full table length. No dead ends.
- There is no disturbing bridge over the laminating roller.
- ModulMounter has our "smart bar" system for quick change of application rolls.
- Can as standard be raised up to 10 cm, and has full storage space under the table.
- ModulMounter has now double rollbars at one table end for quick roll change.
